

## FEATURE EVENT OF CARD IS WON BY COUNTLESS

Jumps Into Lead When Barrier  
Rises and Is Never Headed.  
Bad Jam at First Turn.

Jacksonville, Fla., March 14.—The feature race at Monrovia today, a selling handicap, at a mile and a sixteenth, was won by Countless in easy fashion. Countless jumped into the lead shortly after the barrier had lifted. Making his own pace, he won easily from White Wolf. At the first turn the horses were in a jam. Prince Like was knocked into the fence and had a bad fall. McGarratt falling on him. The jockey did not get a scratch.

## LODGE ARRIVES AND PEARCE TOO

Squad Augmented by Pitcher  
and Catcher—Bradley Nor  
Sullivan Worried.

BY GUS MALBERT.  
It was with some alarm that I read to-day that Manager James W. Sullivan was worried over the condition of his squad for Richmond. Naturally so, in view of the fact that all of the reports received by him were worried in the least and out of the most reasonable and have led to the conclusion that the team was going to come here in a bad way.

The first thing I did after reading this was to get into communication with Sullivan and Owner Bradley. Both of them seemed worried. Members of the Providence Force Hunting and Fishing Club enjoyed a very fine short Monday. Some of the local disciples of Isaac Walton journeyed down and brought back a magnificent catch.

A club weighing eleven pounds nine ounces was landed after some hard work. He was picked up on a trail and fought all the time until he was snatched in the landing net. This is the biggest club ever caught in the pond. Others ranging from six to eight to the smallest, which weighed just exactly three pounds, were captured by the tribe.

Capitulation, the Cuban, who has been taking the measure of all of the chess-players in this country, has finally been beaten, and by Rubinstein, the Russian.

Christy Mathewson is said to have discovered a new ball. From accounts received it is a cross between the famous knuckle ball and a spitter.

It comes to the batter with all seams showing and makes a couple of times before it is out. It is a ball that swatters. Matty wets all of his fingers before delivering the deceptive ball.

Ye shades of Frank Merriwell!  
Frank Moran, Pittsburgh's ninety-sixth edition to the white hope column, has found the way out. He was so badly beaten by Jim Savage, a pick-

up heavy, Monday night that he was carried out in an ambulance. Next Harry Steinfield, on whom the Cubs asked wagers a few days ago, had a remarkable experience. He signed a club contract, was then sold to the Cincinnati Club, and was bought back by the Cubs all in the same day. Which, mildly, is going some.

The bowlers at Buffalo are putting up some classy scores. Hardly a day passes but some record is broken.

Worry not. Remember the promise that the Cubs would never again be destroyed by water.

Howsoever, I know a few people who have consigned the weather man to a place where a little rain might be welcome at any season.

Just to think that it is so close that we can hear the striking of clubs and the breathing of breaths, and goodness me, think of the signs that will be counted if they're a handsome lot.

Cheer up, kind friends. Remember it might have snowed.

Very probable that this is the long season in May.

An optimist is a fellow who can eat salt and be happy in the thought that it wasn't pepper.

We have now in our midst Cowan, Vanhook, White, Pearce, Lodge and Sullivan. Let's have a game.

Goody, goody. Pretty soon it will be April when the weather will be weather.

Dutch Revelle is still holding to his contract, short month for six months with the Yankees.

Curtis Walker is visiting the railroad officers regularly now, trying to find out how to get to Jersey City.

Worry not. Remember the promise that the Cubs would never again be destroyed by water.

Howsoever, I know a few people who have consigned the weather man to a place where a little rain might be welcome at any season.

Just to think that it is so close that we can hear the striking of clubs and the breathing of breaths, and goodness me, think of the signs that will be counted if they're a handsome lot.

Cheer up, kind friends. Remember it might have snowed.

Very probable that this is the long season in May.
